

Defining Excellence Then and Now

MATERIAL CONTENT — STRANDED BEADING WIRE

August 2026

SOFT FLEX® WIRE (All Beading Wire with SFW, SFX, and STW prefixes)

Core:

304 Stainless Steel (an iron carbon alloy including 18% chromium and 8% nickel)
Composed of about 60% recycled material. Soft Flex Extreme strands are plated with 925 Sterling Silver.

Soft Flex and Soft Touch Construction:

.010" Diameters: 7 strands, 1 x 7 construction
.014" Diameters: 21 strands, 3 x 7 construction
.019" Diameters: 49 strands, 7 x 7 construction
.024" Diameters: 49 strands, 7 x 7 construction

Soft Flex Extreme™ 925 Construction:

.014" Diameters: 19 strands, 1 x 19 construction
.019" Diameters: 19 strands, 1 x 19 construction
.024" Diameters: 19 strands, 1 x 19 construction

Coating:

Nylon, Type 11

Spool:

Styrene (vinyl benzene, an organic compound)

Clip:

K-Resin® (Styrene-Butadiene Copolymer)

Lead Free:

All materials and packaging are free of lead.

100% Recyclable:

All SFW, SFX, and STW materials and packaging are recyclable.

MATERIAL CONTENT — STRANDED BEADING WIRE

August 2026

EXTREME™ FLEX WIRE (All Beading Wire with MET prefix)

Core:

Type 302/304 stainless steel free of heavy metals.

Extreme™ Gold wire is Nylon Coated Stainless Steel.

Extreme™ Silver wire is Nylon Coated Stainless Steel.

Extreme™ Flex Wire Construction:

.014" Diameters: 49 strands, 7 X 7 construction

.019" Diameters: 49 strands, 7 X 7 construction

.024" Diameters: 49 strands, 7 X 7 construction

Coating:

Pthlathate-free Nylon Copolymer

Spool:

Polystyrene

Clip:

K-Resin® (Styrene-Butadiene Copolymer)

Lead Free:

All materials and packaging are free of lead.

100% Recyclable:

All SFW, SFX, and STW materials and packaging are recyclable.
