### *Crimping with Magical Crimpers*

**Step 1**  
String a crimp tube. If attaching a clasp or ear wire, make sure that the wires lay side by side.

**Step 2**  
Place the crimp tube inside the groove of the Magical Crimper and squeeze.

**Step 3**  
The pliers will pinch the four corners of the crimp tube and look like a square.

**Step 4**  
Turn the crimp tube on its side in the Magical Crimper, making sure the top of the square is up and squeeze.

**Step 5**  
Rotate and squeeze a few more times. The crimp should tighten down on the wire and look like a round bead.
