A Quick Intro to Flat, Even-Count Peyote with Rola

Cut 90" of beading wire. Slide on two, 4.5mm Rola beads and bring them to the midpoint. Bring both strands through another Rola bead. Tighten. Add one bead on each strand, then bring both strands through a single bead, twice more. Working from the midpoint enables you to work with a long length of wire.

For each new row, pick up a new Rola bead, skip the first bead and go through the next bead. Repeat for all rows of your design.

These clasps have built-in beads that you stitch on just like you would a new bead in a normal row. Weave in remaining wire and trim.
