

Soft Flex[®] Company^{LLP}

Quality Soft Flex[®] Craft Wire

Soft Flex[®] Craft Wire is the highest quality, permanently colored copper wire available. It is resistant to scratching and marring. This is due to the enameling process used to coat the wire to produce the wide spectrum of colors we offer. After the enamel is applied, the wire is then clear coated to prevent tarnishing.

Bare Copper is the only wire in the line that is not treated.

Made in the USA

Round Craft Wire is available in 20 colors and 6 gauges:
 18 ga (1.024mm), 20 ga (0.812mm), 22 ga (0.644mm),
 24 ga (0.511mm), 26 ga (0.405mm) and 28 ga (0.321mm)
